

HEAD BOY

My experience with RBPS has been fabulous and I have got much more than what I expected. It is RBPS , where I made friends, relationships and above all, the unforgettable moments of my life. The ever reminding experiences with the school can't be limited to some lines .

Very proud to say today. RBPS has become a place where shy, reticent students enter to be groomed into confident professionals, ready to take on the competitive world.

The school goes beyond the boundaries of syllabi , in various innovative ways. It impart education using the latest educational and technological tools and methods in order to meet the changing needs of globalising society , which ultimately helps in students advancement . The teachers in the school are so supportive and make the environment , which is most suitable for education. They inculcate human values and professional ethics in the students , which foster within them , decision making abilities and create path that is best not only for them , but also for society and for the nation as a whole .

The experience of being a head boy of the school , taught me many things for my upcoming life and made me confident for facing the challenges of the world .

I request all my juniors to work hard as, to get profile without risk , experience without danger and reward without hardwork is as impossible as it is to live without being .

At last , I would like to thank the management of the school , honourable Director Sir Mr. Rakesh Kumar , Principal Sir Mr. Amit Kumar Agrawal and the whole teaching staff who always showered me with their blessings .

The quality of education and guidance that I have received at RBPS is the main source of my inspiration and I am sure , I am going to miss the school lifelong .
