

HEAD GIRL

Mixed feelings engulfed me as I was given an opportunity to be the Head Girl of this great school whether I shall be able to constrate in my studies with the responsibility. I started taking over duties and responsibilities with uttar seriousness and working towards the realization of the aspirations of the school authority, staff and students. I was very conscious about my role as Head Girl that involves me to ensure proper functioning of school in respect of discipline conduct of assemblies and watching day to day oddities and subtiloties . I really enjoyed the moment of togetherness with my other officials of parliament. In RBPS , I learnt to be punctual , disciplined confident and responsible . I am grateful to my Principal , Staff and students for giving this opportunity that helped to brandish my personality .
